First Year ARCS Scholar  
Davis Award

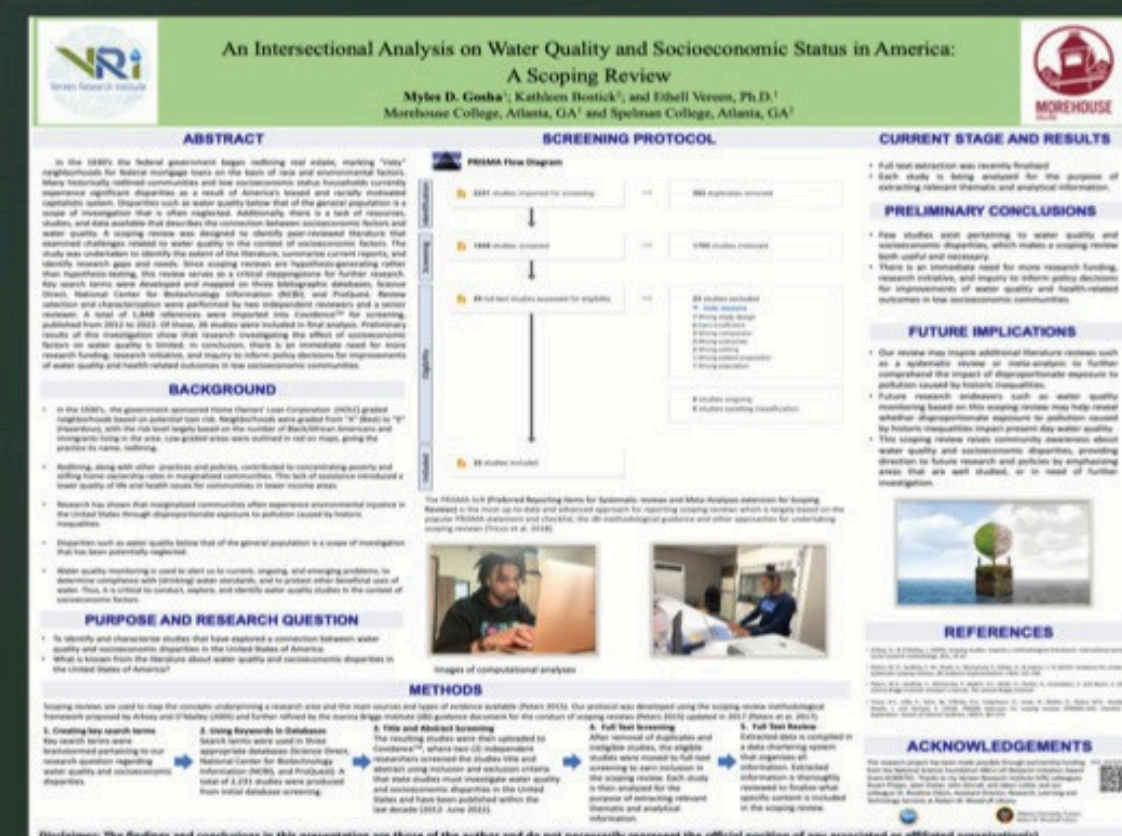

# MOREHOUSE COLLEGE

## Exploring social justice, bats and biochemistry

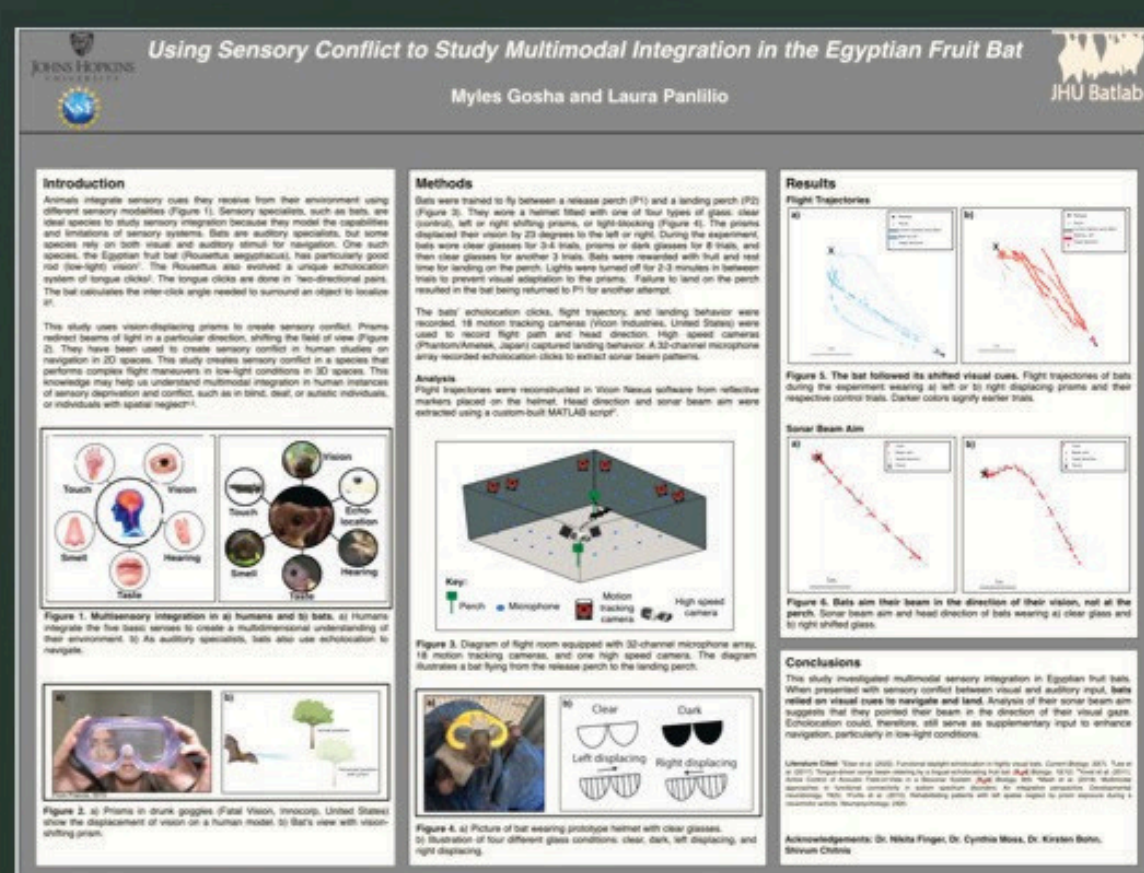

Presented at  
Leadership  
Alliance National  
Symposium

### Environmental Justice Research

The beginning of my research! Scoping review that's still in progress

### Behavioral Research

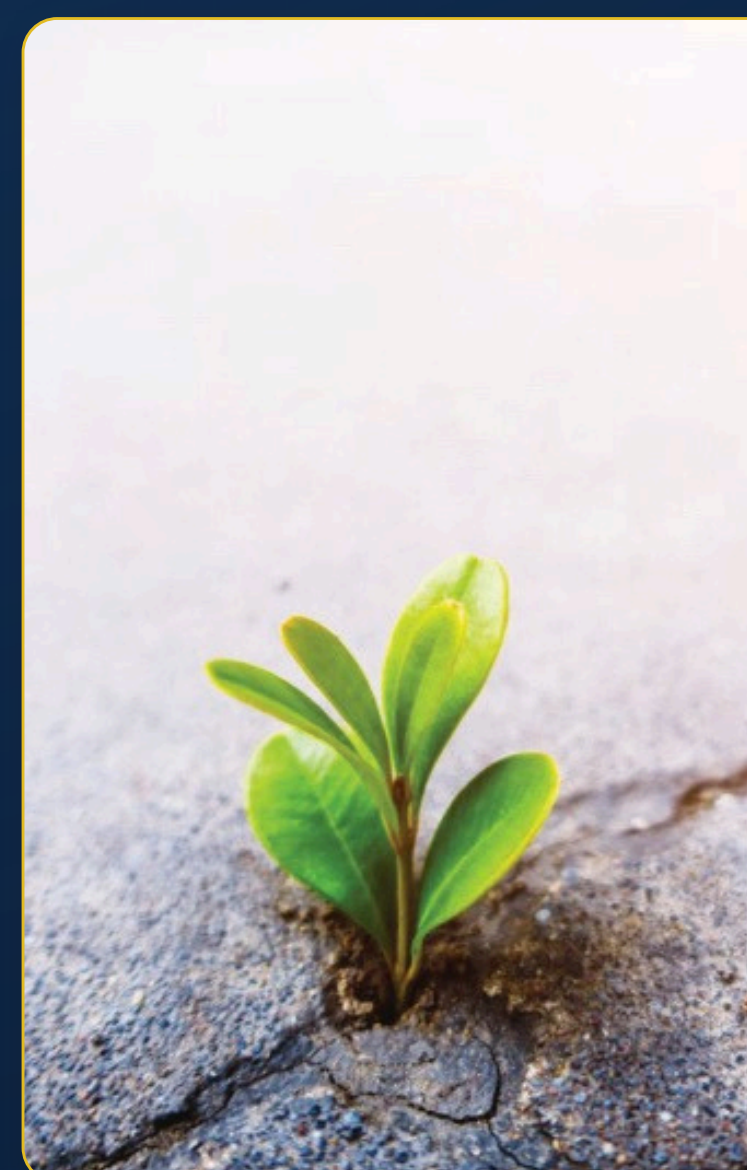

First exposure to psychology research, learned fundamental aspects of perception, used bats as model species

### Future goals

To Advance Our understanding of environmental psychology and how critical it is to society

Serve environmental justice and fix systematic wrongdoings

Research behavioral pharmacology, exploring the impacts of current pharmaceuticals, and researching new ones to better disenfranchised and society as a whole

I would like to express my gratitude to the NSF for funding my research at Johns Hopkins and the Vereen Research Institute. I am also thankful for the opportunities provided by the Vivien Thomas Scholars Program and the Undergraduate Health Sciences Academy, which have been invaluable and insightful.
