ARCS FOUNDATION ACHIEVEMENT REWARDS FOR COLLEGE STUDENTS

The ARCS Foundation, founded in Los Angeles in 1958, recognizes that America's future rests with the young men and women who will invent the answers to the scientific and technological challenges we face as a nation today.

Its 1,700 members in 15 chapters throughout the United States provide scholarship funds for academically outstanding United States citizens who are pursuing higher educations in the fields of natural science, medicine and engineering.

The newly formed Atlanta Chapter will contribute to scholarships for students in Georgia. ARCS scholarship funds have found their way to more than 51 college and university campuses from Massachusetts to California, and have helped support more than 3,500 individual scholars in nearly every scientific discipline.
